NATO Agency Reform and the new NATO Communications and Information Agency

Mr David Burton
DSA ACT and CTO
To strengthen the Alliance through connecting forces, by the end of 2014, the NCI Agency Team:

- Optimises NATO mission success and be recognised as the trusted enabler of information superiority and enterprise excellence;
- Uses best practice to develop, deliver, connect and protect capabilities in partnership with other NATO entities, nations and industry;
- Earns customers confidence through agility, innovation and by delivering coherent and cost-effective solutions.

“Connecting Forces”
Improving Efficiency and Effectiveness

**Mission**

- Deliver C4ISR capabilities that are coherent and interoperable
- Defend and Secure the Network
- Ensure continuous CIS support to all operations

**Critical Role**

Design Authority

**Scope**

“Across the entire C4ISR Life-Cycle”

Linking individual capabilities to service provision and programmes

Providing full Life-Cycle management within one agency ensures coherency, cuts costs and allows for engaging industry more effectively.
NATO C&I Agency Initial Establishment:
(as of 01 Jul 2012)

TOTAL : 3922
- CIV : 1704
- MIL : 2218

Filled Posts (%)
- CIV : 82%
- MIL : 79%
