1. The format of the “Best Value Grading Matrix” does not appear to require any written justification for the “compliance score” for each requirement criteria. However, there is also nothing in the required proposal response requirements asking for the CV of the proposed candidate. Could you please let us know whether you want the justification for each compliance score included within the matrix, accompanied by a CV; or if you wish to have the matrix presented in the format/structure provided in the IFIB with only the compliance score for each category, followed by a CV that has the supporting historical evidence highlighted.	Highly recommend providing justification for each compliance line items (1/2/3) i.e. CV as supporting documentation to demonstrate candidate met these requirements
