

IFIB: IFIB-ACT-SACT-22-121, Contract Support: Wargame Support and Delivery Team for Experimentation and Wargaming Branch

Reference: Q & A # 3

Date of Issue: 3 November 2022

The following questions were raised with respect to subject IFIB. Responses are to provide clarification.

Questions	Responses
1. Is the PMP certification required (Annex A, Evaluation Criteria) or preferred (section 6.A.5) for the Project Manager position?	A project management certification is preferred however, PMP is not the only option (NATO uses Prince2 as an example). All relevant and significant (at least 5 years as a project manager) experience in the last 10 years is acceptable. Proof of this should include concrete examples of project management work by the individual that meets the experience criteria. Note: Preference will be given to certified project managers.
