In the latter case, some restrictions on future activities of the contractor may result.

b. Contractors must implement a programme to monitor, detect, and mitigate/remediate organisational conflicts of interest. While Contracting Officers retain authority to approve mitigation or remediation measures once organizational conflicts of interest are identified, the primary burden of detecting, identifying and disclosing organisational conflicts of interest to the contracting officer and proposing suitable mitigation or remediation measures falls on the contractor.

c. The two underlying principles regarding organisational conflicts of interest are:

i. Preventing the existence of conflicting roles that might bias a contractor's judgment; and

ii. Preventing unfair competitive advantage. An unfair competitive advantage exists where a contractor competing for award of any contract possesses:

1. Proprietary information that was obtained from a NATO official, staff member, or NATO contractor without proper authorisation; or

2. Information that is relevant to the contract but is not available to all competitors, where such information would assist that contractor in obtaining the contract.

d. Contracting officers and potential bidders shall analyse planned acquisitions in order to:

i. Identify and evaluate potential organisational conflicts of interest as early in the acquisition process as possible; and

ii. Avoid, neutralise, or mitigate significant potential conflicts before contract award, where possible, or post award when the organizational conflict of interest is not revealed prior to award.

e. The contracting officer shall award the contract to the apparent successful bidder unless a conflict of interest is determined to exist that cannot be avoided or mitigated. Before determining to withhold award based on conflict of interest considerations, the contracting officer shall notify the contractor, provide the reasons therefor, and allow the contractor a reasonable opportunity to respond. If the contracting officer finds that it is in the best interest of the HQ SACT [JALLC/JFTC/JWC] to award the contract notwithstanding a conflict of interest, the Contracting Officer will issue a waiver and disclose the award and the existence of the organisational conflict of interest to the Financial Controller. The waiver request and decision shall be included in the contract file.

f. Obligations of the Parties.

i. When a Contractor or Prospective Contractor becomes aware of the existence or potential for an organisational conflict of interest, the Contractor is obligated to disclose the existence, nature, and supporting evidence of the conflict. Contractors or Prospective Contractors will be deemed to be aware of the existence or potential for an organisational conflict of interest when the Contractor or Prospective Contractor actually knows or reasonably should know of the existence of the actual or potential organisational conflict of interest.

ii. If the Contracting Officer becomes reasonably aware that the award of a contract will restrict the contractor's eligibility for future contract work, the Contracting Officer will disclose this fact in writing to the Contractor prior to the award, where practicable, and will permit the Contractor or prospective Contractor 7 days to make an election regarding award, discontinuing performance, or submitting an OCI mitigation plan for the Contracting Officer's approval. The sufficiency of the OCI mitigation plan is in the Contracting Officer's sole discretion.
