

## **NATO Allied Command Transformation**

### **Joint Force Development Experimentation & Wargaming Branch 2023 Fact Sheet – Multinational Wargaming**

- Background:** Wargaming is a tested method to generate insight for both analysis of difficult problems and insights that leads to better understanding for leaders and staffs. Wargaming is not a mature discipline in many nations and which not only limits the generation of the valuable insights within the nations, but also makes it difficult to collaborate and participate in multinational wargaming activities.
- Aim:** The aim of the project is to expand and systematize knowledge about war games. An additional goal of the project will be the exchange of experiences and the development of cooperation in the field of wargaming.
- WDI:** Multinational Wargaming aligns under Allied Command Transformation Warfare Development Imperative (WDI) - Integrated Multi-Domain Defence.
- Category:** Multinational Capability Development Campaign 2023-24.
- Sponsors:** NATO ACT and POL
- Headquarters:** NATO Allied Command Transformation; Joint Force Development Directorate; Experimentation & Wargaming Branch
