

NATO Allied Command Transformation **Joint Force Development Experimentation & Wargaming Branch Fact Sheet – Audacious Wargaming**

- Background:** The NATO Warfighting Capstone Concept identifies Audacious Wargaming as a line of delivery for NATO to address immediately. The development of this capability requires the cultivation of a bold risk-taking mind-set in parallel with the use of wargaming at all levels in political and non-political domains. To maintain a competitive edge today and into the future, NATO needs persistent and pervasive openness to think the previously unthinkable and establish analytical rigor to inform decision-making related to strategy development, operational planning, concept examination, capability development, analytical studies, and education and training.
- Aim:** NATO’s Audacious Wargaming capability should enable persistent and pervasive use of wargaming at all decision making levels in political and non-political domains.
- WDI:** Audacious Wargaming aligns under Allied Command Transformation Warfare Development Imperative (WDI) – Cross Domain Command.
- Category:** Wargaming
- Headquarters:** NATO Allied Command Transformation; Joint Force Development Directorate; Experimentation & Wargaming Branch
- EWB:** JFD EWB delivers transformation to the Alliance through the conduct of experiments and wargames. Visit www.act.nato.int/ewb-pressroom for more information, or visit us online at the CDE365 Website located on [NATO’s Transformation Network](#).
- EWB Point of Contact:** Experimentation & Wargaming Staff Officer LTC Aaron Beam, aaron.beam@act.nato.int, +1 (757) 747-3785
