Seamless Shared Situational Awareness across the Forces.

Multi-Domain Operations and Digital Transformation.

Strategic Coordination and Rapid Response.

About FMN

A governed conceptual framework consisting of people, processes and technology to plan, prepare, establish, use and terminate Mission networks in support of federated operations.

What does FMN provide?

Products, principles and processes to enable exchange of vital C2 information. Enables cognitive superiority, a faster decision loop, agility, and enhanced safety for federated forces.
In simple terms: "Plug and Fight".
