

RFI: **RFI-ACT-SACT-23-36 Chemical, Biological, Radiological and Nuclear Functional Service.**

Reference: **Q & A #3**

Date of Issue: **18 April 2023**

The following questions were raised with respect to subject **RFI-ACT-SACT-23-36**

Responses are to provide clarification.

| Questions  | Responses  |
|--|--|
| 1. Can you please provide clarification on the OCI referenced in Section 4.13? Specifically, we are interested in responding to provide information on our capabilities and product portfolio, but are concerned this may eliminate us from responding to future procurements. | 1. HQ SACT's OCI clause is intended to serve as a timely reminder to respondents that ensuing procurement may include a request for bidders to present OCI mitigation measures. If a vendor deems that a response to this RFI may present an OCI, then it is recommended to develop a corresponding mitigation plan and have it at ready, should a subsequent contracting authority request such a plan to be presented as part of a bid submission in response to that entity's competitive bidding procedures. |
| 2. In Section 4.2, there is a reference to NAF v4. Will this be released to offerors prior to bidding?   | 2. Please see below the link to NAFv4:<br><a href="https://www.nato.int/cps/en/natohq/topics_157575.htm">https://www.nato.int/cps/en/natohq/topics_157575.htm</a>  |
