AGILE DEVELOPMENT FOR DCS-Enabled Web Conferencing Service Minimum Viable Product (DEWC MVP)

Background

Acknowledging that data is a critical resource for ensuring information and decision superiority, Data Centric Security (DCS) facilitates the establishment of a seamless and secure data management environment across the Alliance Federation which is applicable to all Alliance Federation operations, missions and ICT infrastructures. DCS will enhance the vital capability of the Alliance Federation to control and protect NATO information and collaborate securely, efficiently and effectively with partners across multiple security domains.

NATO has been working in the area of DCS since 2007 under the auspices of Information Exchange Gateways (IEG), Object Level Protection (OLP) and Content-based Protection and Release (CPR). This work has culminated in a number of significant developments with respect to Proof-of-Concepts, NATO standards and guidance documents, feasibility studies and operational capabilities. This includes:

- NATO Labelling Standards: STANAGs 4774, 4778 and 5636;
- End-Point Labelling Clients: JChat and Microsoft Office Plug-Ins;
- Labelling Services: Metadata Binding Service and Metadata Transformation Service prototypes; and,
- Protection Policy Enforcement Services: Medium and High Assurance Guards, Sanitisation and Redaction prototypes, Object Level and Attribute Based Encryption Proof-of-Concepts.

This work was primarily focused on protecting, controlling and sharing finite data i.e. data of a known structure and size. With knowledge of the data structure, fine-grained granular labelling can be realized. Standardized metadata, particularly related to confidentiality (sensitivity), can be bound to well-defined portions of the data i.e. a paragraph in a document, facilitating operational agility and resource efficiency supported by automatic redaction and sanitization upon access, transfer or release of the document. **Figure 1** below demonstrates such a DCS use case.

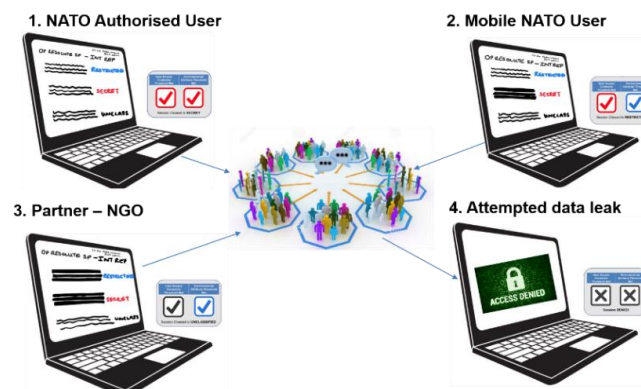

Figure 1: Granular Labelling DCS Use Case Supported by Automatic Sanitization and Redaction.

During the Alliance consultation process, both in peacetime and during military operation, remote web conferencing becomes an increasingly important and mission-critical operational service. One of the significant challenges faced to date is how to enhance the protection of non-finite streaming data through the application of binding trusted standardized metadata to that data stream. The application of binding trusted standardized metadata to a data stream is a key enabler for facilitating this mission critical service amongst partners in different security domains both supporting the principles of 'responsibility-to-share' balanced with the 'need-to-know'. As the sensitivity level (represented by the trusted standardized metadata that is bound to the stream) is known, protection policy enforcement services, such as guards or gateways, can deny transfer of the stream (automatically redacting the web conference in real-time) to those participants who do not have the 'need-to-know' for the duration that the stream is at that sensitivity level. In this way, it will be possible to maximise attendance at a meeting, whilst ensuring that participants/organizations only see or hear the information they are cleared for.

Scope

The 2020 TIDE Hackathon Proofs-of-Concept (PoCs) were developed to support the dynamic assessment of the sensitivity level for an audio stream and enforce whether a user, based on their clearance, was redacted from or re-joined to the stream. The winning PoC used keywords as the mechanism for switching sensitivity level, pre-configured by the Conference Organizer, that were used to dynamically identify the current sensitivity of the audio streams. This PoC provided speech-to-text functionality to make available, for each of the users on the conference, an auto-redacted transcript of the audio stream. A graphical user interface (GUI) illustrating the current sensitivity level of the audio stream and the current users participating at that sensitivity level, along with keyword grouping to sensitivity level was developed for use by the Conference Organizer.

The winning PoC was designed to support Voice over Internet Protocol (VoIP) using Session Initiation Protocol (SIP), therefore, allowing users to participate with existing Internet Protocol (IP) infrastructures and standard VoIP-based clients on mobile phones, tablets or laptops. The clients connected to the modified SIP server (based on the open source multimedia communication library PJSIP). The speech recognition engine, used for dynamically determining the sensitivity level of the audio stream and creating the auto-redacted transcript was modelled on Mozilla DeepSpeech and Google TensorFlow technology. Finally the Conference Organizer SIP-based client was developed using the PJSUA reference implementation for PJSIP.

Initially starting by examining and reusing the 2020 TIDE Hackathon outputs (from all POCs, and in particular the winning POC), the scope of this requirement is for the Contractor to deliver a DEWC MVP (Data Centric Security-enabled Web Conferencing Service Minimum Viable Product). The preceding high-level requirements must be met in order to fulfill the objectives of this requirement and may be refined adaptively over the course of the effort to continuously meet specified user needs. User needs will be prioritized based on operational value and technical dependencies in the product backlog.

Performance Objectives

HQ SACT is seeking the creation of a DEWC MVP. This MVP will allow multiple users from multiple security domains to collaborate seamlessly and interactively (to the level of sensitivity that they are cleared to) using web conferencing technology. To do so, it will meet evolving requirements while leveraging Agile best practices in software development including, but not limited to, open source technology, human-centered design, and with an extensible infrastructure and robust communication between the product sponsor and the project team.

Based on 2020 TIDE Hackathon Proofs-of-Concept (PoCs), a minimum viable first release is expected within the first 4 weeks under this contract. It is HQ SACT's desire that 2020 TIDE Hackathon winning Proof-of-Concept (PoC) features are included to the greatest extent possible in this first release. Release after release, the MVP, which emerges out of user testing, must converge within the scope described below.

NATO DCS context and objectives

NATO DCS will follow an evolutionary, incremental approach that progressively facilitates improved data control, sharing and protection. As such, the NATO DCS Vision and Strategy identifies three major Maturity Levels, each requiring a specific technology to meet the objectives of each Maturity Level. The scope for the DCS-Enabled Web Conferencing Service MVP is primarily targeted at DCS Maturity level 2. In particular the development of the DEWC MVP needs to be cognizant of the NATO DCS-2 technical objectives provided in Table 1.

Table 1: NATO DCS-2 Technical Objectives

DCS 2 Technical Objective	Description
DCS-2-1	Labelling STANAGs-compliant trusted binding of metadata to non-finite data streams
DCS-2-2	User-friendly security policy management
DCS-2-3	Support federated identity and access management mechanisms
DCS-2-4	Distributed Protection Policy Enforcement with Guard capability for information exchange based on standardized confidentiality labels

Figure 2 illustrates the cross domain DCS use case intended to be met by the MVP whereby multiple users from multiple security domains can collaborate seamlessly and interactively (to the level of sensitivity that they are cleared to) using web conferencing technology.

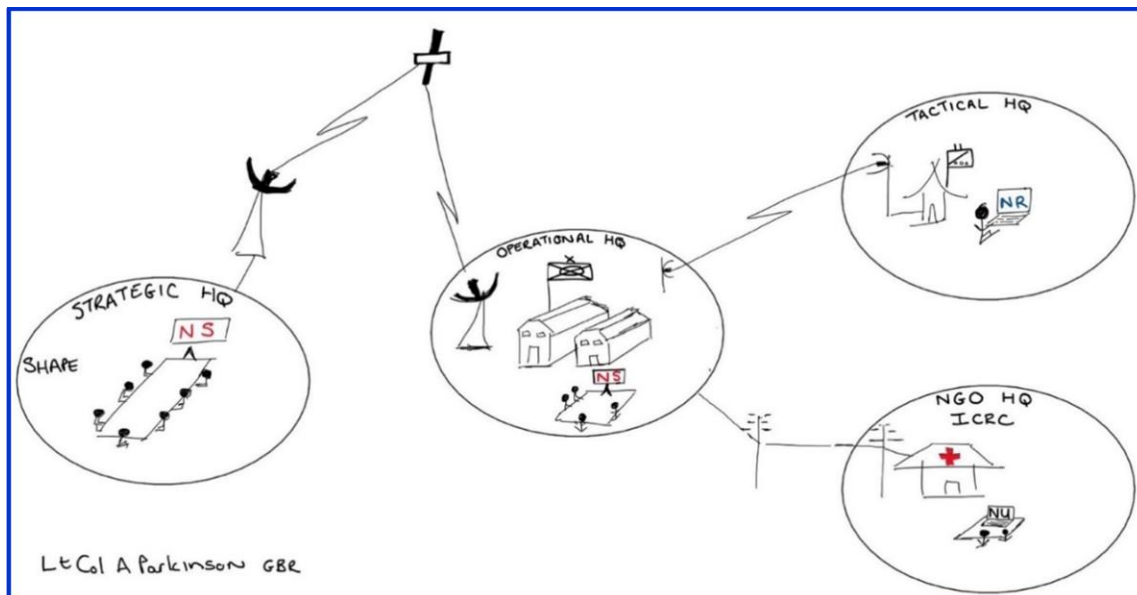

Figure 2: DCS Cross Domain Web Conferencing Use Case

Product objectives

The MVP will be developed to meet the objectives captured in Table 2.

Table 2: DEWC MVP Objectives

MVP Enhancements compared to Hackathon PoC

Overall objective for DEWC MVP is to offer the same experience as provided by current best web conferencing tools and practices, and to add to it DCS interoperable features as drafted and demonstrated by Hackathon PoCs.

Table 3 specifies capability enhancements to be offered by the MVP on top of the Hackathon PoC mapped to DCS Objectives and MVP Objectives specified above. NATO standards related to DCS and mentioned below are available on

Constraints

Contractor shall adhere to Web Design Standards or other development standards as developed by the team. Work will be conducted in two-week sprints and reviewed at the end of each sprint for acceptability before moving on. The contractor and HQ SACT may mutually agree to alter sprint length as needed.

The offered solution must:

- Be deployable on the Docker containers infrastructure hosted on the Innovation Lab Amazon Web Service (AWS) cloud environment.
- Use Innovation Lab GitLab Hosting development environment for Continuous Integration/Continuous Delivery/Continuous Deployment (CI/CD/CD), including source code hosting.
- Be accessible through Innovation Lab domain schema for production, staging and development branches
- Use Open Source technology

Project Management

The Contractor SHALL follow Agile SCRUM approach to project management in execution of this SOW.

The Contractor shall :

- a. Create/update a set of “user stories”, each of which is a high-level definition of a requirement, containing just enough information so that the developers can produce a reasonable estimate of the effort to implement it
- b. Create/update the “backlog” of user stories, which together represent the products (or “features”) necessary to implement the system and which address all aspects of the WBS:
 - i. Each user story should be testable, with a clearly stated test plan and expected results
 - ii. Each user story has a clear definition of “done”, i.e. what acceptance criteria must be met to consider the user story completed

- iii. Each user story should generally be discrete enough to be able to complete it during the course of one sprint
- iv. Each user story is broken down into tasks which comprise the total feature
- c. Prioritise the user stories in the backlog, in coordination with the “Product Owner”, who is the focal point for the project.
- d. Estimate the effort involved in developing and testing each user story (or at least the most highly prioritised ones), and identify which will be achieved in the next sprint
- e. During the course of the sprint, develop and test the products identified for that sprint
- f. During the course of the sprint, meet frequently (preferably a daily “stand up”) with both the development team and the Product Owner to discuss progress and issues
- g. At the end of the sprint, demonstrate the completed product(s)– along with the successfully executed test cases –at which time the Product Owner, accepts (or not) the products developed during the sprint; these are then considered done.

Roles and Responsibilities

Contracting Officer (CO)

The Contracting Officer (CO) is responsible for monitoring for contract compliance, contract administration, and cost control and for resolving any differences between the observations documented by HQ SACT and the contractor. The CO will designate, at a minimum, one (1) CO’s Technical Representative as the authority for performance management, based on the complexity of the services measured, as well as the contractor’s performance.

- Coordination with the contracting organization’s program office to enable timely problem resolution,
- Properly aligning staffing requirements
- Facilitating product reporting in line with Agile delivery methods Per Agile development principles, the Contractor’s Project Lead will be expected to work with the Product Owner and Scrum Master to develop Product / Sprint plans and reporting in line with Agile delivery approaches.

Product Owner (PO)

The Product Owner is the project's key stakeholder and is from ACT. The PO shall be responsible for having a vision of what product team wishes to build, and convey the vision to the contractor's scrum or development team. The PO's responsibilities include, but are not limited to, the following:

The withdrawal or replacement of the Contractor Personnel shall be carried out as quickly as possible and in a manner that will not adversely affect the performance of obligation under the Contract. All expenses related to the withdrawal or replacement of the Contractor Personnel shall, in all cases, be borne exclusively by the Contractor. - 19.3 The Contractor shall ensure that his employees are aware of his arrangements for discharging the obligations of this Paragraph before they receive information and take such steps as may be reasonably practical to enforce such arrangements.
- 19.4 Neither party shall be in breach of this Paragraph where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a legal or judicial obligation. Where such a disclosure is made, the party making the disclosure shall ensure that the recipient of the information is made aware of and asked to respect its confidentiality, and shall inform the HQ SACT Purchasing and Contracting office and/or Legal office, unless such disclosure is otherwise prohibited by law. Such disclosure shall in no way diminish the obligations of the parties under the terms of this Paragraph.

20. Assigning, Transferring, Pledging or Making Dispositions

Under the Contract. The Contractor may not assign, transfer, pledge or make any other disposition of the Contract, or any part of the Contract, or any of the rights, claims or obligation under the Contract except with the prior written authorization of an authorized HQ SACT representative with authority to accept or execute a modification to the Contract ("authorized HQ SACT representative"). Except as permitted with respect to any approved subcontractors, the Contractor shall not delegate any of its obligations under this Contract, except with the prior written consent of an authorized HQ SACT representative. Any such unauthorized delegation, or attempt to do so, shall not be binding on HQ SACT.

HQ SACT shall have the right to require any subcontractor's removal from HQ SACT premises without having to give any justification. Any such rejection or request for removal shall not, in and of itself, entitle the Contractor to claim any delays in the performance, or to assert any excuses for the non-performance of any of its obligations under the Contract, and the Contractor shall be solely responsible for all services and obligations performed by its subcontractors. The terms of any subcontract shall be subject to, and shall be construed in a manner that is fully in accordance with, all of the terms and condition of the Contract.

- b. The Contractor also shall be obligated, at its sole expense, to defend HQ SACT and its officials, agents and employees, regardless of whether the suits, proceedings, claims and demands in question actually give rise to or otherwise result in any loss or liability. The Contractor shall have sole control of the defence of any such suit, proceeding, claim or demand and of all negotiations in connection with the settlement or compromise thereof, except with respect to the assertion or defence of the privileges and immunities of NATO, any subordinate NATO command, activity or agency, and HQ SACT

RFP-ACT-SACT-20-71

or any matter relating thereto, for which only NATO and HQ SACT is authorized to assert and maintain. HQ SACT shall have the right, at its own expense, to be represented in any such suit, proceeding, claim or demand by independent counsel of its own choosing.

- c. In the event the use by HQ SACT of any goods, property or services provided or licensed to HQ SACT by the Contractor, in whole or in part, in any suit or proceeding, is for any reason enjoined, temporarily or permanently, or is found to infringe on any patent, copyright, trademark or other intellectual property right, or in the event of a settlement, is enjoined, limited or otherwise interfered with, then the Contractor, at its sole cost and expense, shall promptly procure for HQ SACT the unrestricted right to continue using such goods or services provided to HQ SACT, replace or modify the goods or services provided to HQ SACT, or part thereof, with the equivalent or better goods or services, or part thereof, that is non-infringing, or refund to HQ SACT the full price paid by HQ SACT for the right to have or use such goods, property or services, or part thereof.

23. Insurance and Liability

The Contractor shall pay HQ SACT promptly for all loss, destruction, or damage to the property of HQ SACT caused by the Contractor's personnel or by any of its subcontractors or anyone else directly or indirectly employed by the Contractor or any of its subcontractors in the performance of the Contract. Unless otherwise provided in the Contract, prior to commencement of performance of any other obligations under the Contract, and subject to any limits set forth in the Contract, the Contractor shall take out and shall maintain for the entire term of the Contract, for any extension thereof, and for a period following any termination of the Contract reasonably adequate to deal with losses, insurance against all risks in respect of its property and any equipment used for the performance of the Contract; workers' compensation insurance, or its equivalent, or employer's liability insurance, or its equivalent, with respect to the Contractor's personnel sufficient to cover all claims for injury, death and disability, or any other benefits required to be paid by law, in connection with the performance of the Contract; liability insurance in an adequate amount to cover all claims, including, but not limited to, claims for death and bodily injury, products and completed operations liability, loss of or damage to property, and personal and advertising injury, arising from or in connection with the Contractor's performance under the Contract, including, but not limited to, liability arising out of or in connection with the acts or omissions of the Contractor, its personnel, agents, or invitees, or the use, during the performance of the Contract, of any vehicles or other transportation vehicles and equipment, whether or not owned by the Contractor; and, such other insurance as may be agreed upon in writing between HQ SACT and the Contractor. The Contractor's liability policies shall also cover subcontractors and all defence costs and shall contain a standard "cross liability" clause. The Contractor acknowledges and agrees that HQ SACT accepts no

responsibility for providing life, health, accident, travel or any other insurance coverage which may be necessary or desirable in respect of any personnel performing services for the Contractor in connection with the Contract. Except for the workers' compensation insurance or any self-insurance program maintained by the Contractor and approved by HQ SACT, in its sole discretion, for purposes of fulfilling the Contractor's requirements for providing insurance under the Contract, the insurance policies required under the Contract shall: name HQ SACT as an additional insured under the liability policies, including, if required, as a separate endorsement under the policy; include a waiver of subrogation of the Contractor's insurance carrier's rights against HQ SACT; provide that HQ SACT shall receive written notice from the Contractor's insurance carrier not less than thirty (30) days prior to any cancellation or material change of coverage; and, include a provision for response on a primary and non-contributing basis with respect to any other insurance that may be available to HQ SACT. The Contractor shall be responsible to fund all amounts within any policy deductible or retention. Except for any self-insurance program maintained by the Contractor and approved by HQ SACT for purposes of fulfilling the Contractor's requirements for maintaining insurance under the Contract, the Contractor shall maintain the insurance taken out under the Contract with reputable insurers that are in good financial standing and that are acceptable to HQ SACT. Prior to the commencement of any obligations under the Contract, the Contractor shall provide HQ SACT with evidence, in the form of certificate of insurance or such other form as HQ SACT may reasonably require, that demonstrates that the Contractor has taken out insurance in accordance with the requirements of the Contract. HQ SACT reserves the right, upon written notice to the Contractor, to obtain copies of any insurance policies or insurance program descriptions required to be maintained by the Contractor under the Contract. Notwithstanding the provisions of Article 6.5.3, above, the Contractor shall promptly notify HQ SACT concerning any cancellation or material change of insurance coverage required under the Contract. The Contractor acknowledges and agrees that neither the requirement for taking out and maintaining insurance as set forth in the Contract nor the amount of any such insurance, including, but not limited to, any deductible or retention relating thereto, shall in any way be construed as limiting the Contractor's liability arising under or relating to the Contract.

24. Equipment furnished by HQ SACT to the Contractor

Title to any equipment and supplies that may be furnished by HQ SACT to the Contractor for the performance of any obligations under the Contract shall rest with HQ SACT, and any such equipment shall be returned to HQ SACT at the conclusion of the Contract or when no longer needed by the Contractor. Such equipment, when returned to HQ SACT, shall be in the same condition as when delivered to the Contractor, subject to normal wear and tear, and the Contractor shall be liable to compensate HQ SACT for the actual costs of any loss of, damage to, or degradation of the equipment that is beyond normal wear and tear.

25. Publicity and the Use of the Name, Emblem or Official Seal or HQ SACT.

The Contractor shall not advertise or otherwise make public for purposes of commercial advantage or goodwill that it has a contractual relationship with HQ SACT, nor shall the Contractor, in any manner whatsoever use the name, emblem or official seal of HQ SACT, or any abbreviation of the name of HQ SACT in connection with its business or otherwise without the written permission HQ SACT.

26. Privileges and Immunities.

Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of HQ SACT, including its subsidiary commands or activities.

27. Force Majeure, and Other Changes in Conditions

In the event of and as soon as possible after the occurrence of any cause constituting force majeure, the affected Party shall give notice and full particulars in writing to the other Party, of such occurrence or cause if the affected Party is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under the Contract. The affected Party shall also notify the other Party of any other changes in condition or the occurrence of any event which interferes or threatens to interfere with its performance of the Contract. Not more than fifteen (15) days following the provision of such notice of force majeure or other changes in condition or occurrence, the affected Party shall also submit a statement to the other Party of estimated expenditures that will likely be incurred for the duration of the change in condition or the event of force majeure. On receipt of the notice or notices required hereunder, the Party not affected by the occurrence of a cause constituting force majeure shall take such action as it reasonably considers to be appropriate or necessary in the circumstances, including the granting to the affected Party of a reasonable extension of time in which to perform any obligations under the Contract. If the Contractor is rendered unable, wholly or in part, by reason of force majeure to perform its obligations and meet its responsibilities under the Contract, HQ SACT shall have the right to suspend or terminate the Contract on the same terms and conditions as are provided for in Paragraph pertaining to termination rights, except that the period of notice shall be seven (7) days instead of thirty (30) days. In any case, HQ SACT shall be entitled to consider the Contractor permanently unable to perform its obligations under the Contract in case the Contractor is unable to perform its obligations, wholly or in part, by reason of force majeure for any period in excess of ninety (90) days. RFP-ACT-SACT-20-71

provided that such acts arise from causes beyond the control and without the fault or negligence of the Contractor. The Contractor acknowledges and agrees that, with respect to any obligations under the Contract that the Contractor must perform in areas in which HQ SACT is engaged in, preparing to engage in, or disengaging from any peacekeeping, humanitarian or similar operations, any delays or failure to perform such obligations arising from or relating to harsh conditions within such areas, or to any incidents of civil unrest occurring in such areas, shall not, in and of itself, constitute force majeure under the Contract.

28. Nonwaiver of Rights.

The failure by either Party to exercise any rights available to it, whether under the Contract or otherwise, shall not be deemed for any purposes to constitute a waiver by the other Party of any such right or any remedy associated therewith, and shall not relieve the Parties of any of their obligations under the Contract.

29. Non-exclusivity

Unless otherwise specified in the Contract, HQ SACT shall have no obligation to purchase any minimum quantities of goods or services from the Contractor, and HQ SACT shall have no limitation on its right to obtain goods or services of the same kind, quality and quantity described in the Contract, from any other source at any time.

30. Modifications

Only the HQ SACT Contracting Officer or his designee, or such other Contracting authority as HQ SACT has made known to the Contractor in writing, possesses the authority to agree on behalf of HQ SACT to any modification of or change in the Contract, to a waiver of any of its provisions or to any additional contractual relationship of any kind with the Contractor. Accordingly, no modification or change in the Contract shall be valid and enforceable against HQ SACT unless provided by a valid written amendment to the Contract signed by the Contractor and the HQ SACT Contracting Officer or his designee. A Contracting Officer's Technical Representative does not have authority to modify the terms or conditions of the Contract in any manner, but may only administer the Contract according to its terms. If the Contract shall be extended for additional periods in accordance with the terms and conditions of the Contract, the terms and conditions applicable to any such extended term of the Contract shall be the same terms and conditions as set forth in the Contract, unless the Parties shall have agreed otherwise pursuant to a valid amendment concluded in accordance with the procedures for amendments established herein. The terms or conditions of any supplemental undertakings, licenses, or other forms of agreement concerning any goods or services provided under the Contract shall not be valid and enforceable against HQ SACT nor in any way shall constitute an agreement by HQ SACT thereto unless any such undertakings, licenses or other forms are

the subject of a valid amendment concluded in accordance with the terms of the Contract.

31. Audits and Investigations

Each invoice paid by HQ SACT shall be subject to a post-payment audit by auditors, whether internal or external, of HQ SACT or by other authorized and qualified agents of HQ SACT at any time during the term of the Contract and for a period of three (3) years following the expiration or prior termination of the Contract. HQ SACT shall be entitled to a refund from the Contractor for any amounts shown by such audits to have been paid by HQ SACT other than in accordance with the terms and conditions of the Contract. HQ SACT may conduct investigations relating to any aspect of the Contract or the award thereof, the obligations performed under the Contract, and the operations of the Contractor generally relating to performance of the Contract at any time during the term of the Contract and for a period of three (3) years following the expiration or prior termination of the Contract. The Contractor shall provide its full and timely cooperation with any such inspections, post-payment audits or investigations. Such cooperation shall include, but shall not be limited to, the Contractor's obligation to make available its personnel and any relevant documentation for such purposes at reasonable times and on reasonable conditions and to grant to HQ SACT access to the Contractor's premises at reasonable times and on reasonable conditions in connection with such access to the Contractor's personnel and relevant documentation. The Contractor shall require its agents, including, but not limited to, the Contractor's attorneys, accountants, auditors, or other managers, employees or advisers, to reasonably cooperate with any inspections, post-payment audits or investigations carried out by HQ SACT hereunder.

32. Source of Instructions

The Contractor shall neither seek nor accept instructions from any authority external to HQ SACT in connection with the performance of its obligations under the Contract, except as otherwise required by law. Should any authority external to HQ SACT seek to impose any instructions concerning or restrictions on the Contractor's performance under the Contract, the Contractor shall promptly notify HQ SACT and provide all reasonable assistance required by HQ SACT. The Contractor shall not take any action in respect of the performance of its obligations under the Contract that may adversely affect the interests of HQ SACT, and the Contractor shall perform its obligations under the Contract with the fullest regard to the interests of HQ SACT.

33. Lawful Conduct and Officials Not to Benefit Personally

The Contractor warrants that it has not and shall not offer to any representative, official, employee, or other agent of HQ SACT any direct or indirect benefit

arising from or related to the performance of the Contract or of any other contract with HQ SACT or the award thereof or for any other purpose intended to gain an advantage for the Contractor. Any such offer discovered post-award shall result in immediate termination of the contract, disqualification from future business with HQ SACT, and provision of information pertaining to the transaction or attempted transaction to law enforcement authorities. The Contractor shall comply with all laws, ordinances, rules, and regulations bearing upon the performance of its obligations under the Contract.

34. Child Labour and Sexual Exploitation of Others

The Contractor represents and warrants that neither it, its parent entities (if any), nor any of the Contractor's subsidiary or affiliated entities (if any) is engaged in any practice inconsistent with or violation of state or federal child labour laws or international human rights law, which, inter alia, requires that a child shall be protected from performing any work that is likely to be hazardous or to interfere with the child's education, or to be harmful to the child's health or physical, mental, spiritual, moral, or social development. The Contractor shall take all appropriate measures to prevent sexual exploitation or abuse in violation of state or federal law or international human rights obligations of anyone by its employees or any other persons engaged and controlled by the Contractor to perform any services under the Contract. In addition, the Contractor shall refrain from, and shall take all reasonable and appropriate measures to prohibit its employees or other persons engaged and controlled by it from exchanging any money, goods, services, or other things of value, for sexual favours or activities, or from engaging any sexual activities that are exploitive or degrading to any person.

35. Termination

Either Party may terminate the Contract for cause, in whole or in part, upon thirty (30) day's notice, in writing, to the other Party. The initiation of conciliation or arbitral proceedings in accordance with Article 16 "Settlement of Disputes," below, shall not be deemed to be a "cause" for or otherwise to be in itself a termination of the Contract.

36. HQ SACT may terminate the Contract

HQ SACT may terminate the Contract at any time by providing written notice to the Contractor in any case in which the mandate of HQ SACT applicable to the performance of the Contract or the funding of HQ SACT applicable to the Contract is curtailed or terminated, whether in whole or in part. In addition, unless otherwise provided by the Contract, upon sixty (60) day's advance written notice to the Contractor, HQ SACT may terminate the Contract without having to provide any justification therefor.

37. In the event of any termination

In the event of any termination of the Contract, upon receipt of notice of termination that has been issued by HQ SACT, the Contractor shall, except as may be directed by HQ SACT in the notice of termination or otherwise in writing, take immediate steps to bring the performance of any obligations under the Contract to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum; refrain from undertaking any further or additional commitments under the Contract as of and following the date of receipt of such notice; place no further subcontracts or orders for materials, services, or facilities, except as HQ SACT and the Contractor agree in writing are necessary to complete any portion of the Contract that is not terminated; terminate all subcontracts or orders to the extent they relate to the portion of the Contract terminated; transfer title and deliver to HQ SACT the fabricated or un-fabricated parts, work in process, completed work, supplies, and other material produced or acquired for the portion of the Contract terminated; deliver all completed or partially completed plans, drawings, information, and other property that, if the Contract had been completed, would be required to be furnished to HQ SACT thereunder; complete performance of the work not terminated; and, take any other action that may be necessary, or that HQ SACT may direct in writing, for the minimization of losses and for the protection and preservation of any property, whether tangible or intangible, related to the Contract that is in the possession of the Contractor and in which HQ SACT has or may be reasonably expected to acquire an interest. In the event of any termination of the Contract, HQ SACT shall be entitled to obtain reasonable written accountings from the Contractor concerning all obligations performed or pending in accordance with the Contract. In addition, HQ SACT shall not be liable to pay the Contractor except for those goods delivered and services provided to HQ SACT in accordance with the requirements of the Contract, but only if such goods or services were ordered, requested or otherwise provided prior to the Contractor's receipt of notice of termination from HQ SACT or prior to the Contractor's tendering of notice of termination to HQ SACT. HQ SACT may, without prejudice to any other right or remedy available to it, terminate the Contract forthwith in the event that the Contractor is adjudged bankrupt, or is liquidated, or becomes insolvent, or applies for a moratorium or stay on any payment or repayment obligations, or applies to be declared insolvent; the Contractor is granted a moratorium or a stay, or is declared insolvent; the Contractor makes an assignment for the benefit of one or more of its creditors; a Receiver is appointed on account of the insolvency of the Contractor; the Contractor offers a settlement in lieu of bankruptcy or receivership; or HQ SACT reasonably determines that the Contractor has become subject to a materially adverse change in its financial condition that threatens to substantially affect the ability of the Contractor to perform any of its obligations under the Contract. Except as prohibited by law, the Contractor shall be bound to compensate HQ SACT for all damages and costs, including, but not limited to, all costs incurred by HQ SACT in any legal or non-legal proceedings, as a result of any of the events specified above pertaining

to insolvency and resulting from or relating to a termination of the Contract, even if the Contractor is adjudged bankrupt, or is granted a moratorium or stay or is declared insolvent. The Contractor shall immediately inform HQ SACT of the occurrence of any of the events specified above, and shall provide HQ SACT with any information pertinent thereto. The provisions of this paragraph are without prejudice to any other rights or remedies of HQ SACT under the Contract or otherwise.

38. Immunity from Taxation

The Paris Protocol, an international agreement, provides HQ SACT, including its subsidiary and affiliated agencies, commands, organizations and activities, is exempt from all direct taxes, and is exempt from customs restrictions, duties, and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the exemptions of HQ SACT from such taxes, restrictions, duties, or charges, the Contractor shall immediately consult with HQ SACT to determine a mutually acceptable procedure. The Contractor authorizes HQ SACT to deduct from the Contractor's invoices any amount representing such taxes, duties or charges, unless the Contractor has consulted with HQ SACT before the payment thereof and HQ SACT has, in each instance, specifically authorized the Contractor to pay such taxes, duties, or charges under written protest. In that event, the Contractor shall provide HQ SACT with written evidence that payment of such taxes, duties or charges has been made and appropriately authorized, and HQ SACT shall reimburse the Contractor for any such taxes, duties, or charges so
