

RFI: **RFI-ACT-SACT-23-42 - Education, Training, Exercises and Evaluation (ETEE) Functional Services (FS) Capability**

Reference: **Q&A #3**

Date of Issue: **18 August 2023**

The following questions were raised with respect to subject **RFI-ACT-SACT-23-42 - - Education, Training, Exercises and Evaluation (ETEE) Functional Services (FS) Capability**. Responses are to provide clarification.

Questions	Responses
1. At the industry day in August there was some discussion about moving the demonstration from October 2023 to 1Q 2024. Have new dates been defined?	1. Phase IIIa will consist of trials and demonstrations of potential lessons learned solutions and is currently scheduled to be held 3 – 5 OCT 2023 at the Joint Force Training Centre (JFTC) in Bydgoszcz, POL. The dates and/or location for Phase IIIa are subject to change. A decision confirming the dates and location will be made at the end of the response period for Lessons Learned submission.
2. Can you provide more details about the scope of the tool demonstration for Phase III? Which requirements/capabilities will be exercised at this evaluation?	2. Phase IIIb will consist of trials and demonstrations of potential CT&E, Evaluation and E&IT solutions. It is currently planned for January 2024 in Great Britain. The exact dates and location will be provided to those selected to participate in the event.
3&4. How many users will need to be supported for each of the capability areas? How many administrators will need to be supported for the system?	3&4.As stated in Question #1 of the Capability Overview in the survey (Annex B) of the RFI, it is expected that up to twenty (20) users from the LL Community of Interest (COI) will participate in the trials and demonstrations. Of these, the specific number of standard users and administrators is not known at this time. It is also expected that a representative(s) from the Implementing Entity will be participating in the event.
