RFI-ACT-SACT-23-120 - Next Generation Joint Targeting Capability (NJTS)

Reference:

Q & A #3

Date of Issue:

06 December 2023

The following questions were raised with respect to subject **RFI-ACT-SACT-23-120 - Next Generation Joint Targeting Capability (NJTS)**. Responses are to provide clarification.

Questions	Responses
1. Could you clarify the 7th requirement, "have the capability to change assessment in the virtual dimension including cognitive dimension"	Change assessment is an equivalent of BDA for non-physical effects. This includes, but is not limited to, effects that are created in the Information Environment (IE) as a result of Information Activities. Information on the effects are collected and assessed through different intelligence sources and Info Ops Information Environment Analysis. Change Assessment is performed by analysts in Phase 6 of the targeting cycle.
2. Is it about Battle Damage Assessment process? What's the purpose of the assessment and changing assessment? Who makes the assessment, in which phase?
