

RFI:

**RFI-ACT-SACT-24-22- Cyberspace Warfare Development and Experimentation Campaign**

Reference:

Q&A #2

Date of Issue:

25 March 2024

The following questions were raised with respect to subject **RFI-ACT-SACT-24-22-Cyberspace Warfare Development and Experimentation Campaign**. Responses are to provide clarification.

Questions	Responses
1. We note that section 1.2 of the RFI says “this RFI does not constitute a commitment to issue a future Request for Proposal (RFP)”. If the RFI were to lead to an RFP, please could you confirm what the budget range could be for any consequent RFP?	Figures cannot be provided by ACT as, depending on the proposals and way forward, budget will vary.
2. Where section 1.3 says “all information shared with HQ SACT might be shared with contracted third parties”, does that include other potential suppliers?	ACT will not openly share any individual inputs to this RFI, in general or with other RFI respondents. ACT might, however, use the provided information to develop new, updated or enhanced RFIs, RFPs, SoWs and/or JDs that would be openly published in accordance with NATO financial regulations.
3. In figure 1, two areas of interest are highlighted and underlined (doctrine & concepts and experiment & demonstration) – is there any significance to this?	Those areas are highlighted to emphasize that RFI responses/proposals will inform in particular those ACT activities.
